

BABLU GUPTA

ANDROID DEVELOPER | KOTLIN | JAVA | MVVM | JETPACK

+91-7409290026 | bg.babloo.gupta@gmail.com | Mathura, Uttar Pradesh, India

Preferred locations: Noida, Pune, Bengaluru | Notice period: 30 days; earliest joining possible in 15 days

PROFESSIONAL SUMMARY

Android Developer with 5+ years of total software engineering experience, including 4+ years delivering Android and mobile applications. Experienced in building customer-facing applications using Kotlin, Java, Android SDK, Jetpack, Jetpack Compose, MVVM, and Clean Architecture. Strong background in REST/HTTP integrations, Firebase, secure payment workflows, RFID/QR solutions, debugging, performance optimization, backend integration, and Google Play delivery. Owns features end-to-end from requirement analysis and application design through coding, testing, release, and production support, with approximately six months of telecom-domain exposure.

CORE TECHNICAL SKILLS

Native Android: Kotlin, Java, Android SDK, Jetpack, Jetpack Compose, ViewBinding, RecyclerView

Architecture & Design: MVVM, Clean Architecture, mobile application design patterns, object-oriented design, reusable and maintainable code

Networking & Data: RESTful APIs, HTTP, JSON, Firebase, MySQL, PostgreSQL

Testing & Quality: JUnit, Espresso, debugging, performance optimization, reliability, secure transaction flows

Tools & Delivery: Git, CI/CD, Google Play Console, AWS, VPS, Google Maps

Integrations & Supporting Skills: Razorpay, Paytm, BBPS, HDFC, RFID, QR Code; Flutter/Dart and PHP/Flask as supporting skills

PROFESSIONAL EXPERIENCE

MMI Softwares Pvt. Ltd. | Mobile Application Developer | Mathura, UP | Aug 2022 - Present

- Design, develop, enhance, and maintain customer-facing native Android applications using Kotlin and Java; contribute to Flutter applications as a supporting cross-platform capability.
- Apply MVVM, Clean Architecture, Android SDK, and Jetpack practices to structure features for maintainability, reuse, and reliable end-to-end delivery.
- Consume HTTP/RESTful APIs and Firebase services, and coordinate PHP/MySQL API and database workflows to connect mobile applications with backend systems.
- Integrate Razorpay, Paytm, BBPS, HDFC, Google Maps, RFID, and QR-based workflows with transaction validation, status handling, synchronization, and operational tracking.
- Own the development lifecycle from requirement analysis and application design through coding, debugging, testing, Play Store release, production troubleshooting, and support.
- Optimize application performance, data handling, and integration reliability while collaborating with stakeholders and backend teams to translate business requirements into technical solutions.
- Delivered mobile solutions with approximately six months of telecom-domain exposure.

Elano Infotech Software Solution | Web Developer | Mathura, UP | Jun 2021 - Jul 2022

- Developed backend services and APIs using Flask (Python), MySQL, and PostgreSQL, supporting data-driven web and application workflows.
- Built responsive interfaces using AngularJS, HTML, CSS, Bootstrap, and jQuery; deployed and managed applications on AWS and VPS infrastructure.
- Collaborated with stakeholders to convert business requirements into maintainable technical solutions.

SELECTED PROJECTS

Jwelly E-Cat | Native Android (Java), Android SDK, RFID, QR, REST APIs, PHP/MySQL

- Developed a customer-facing showroom sales application with RFID product selection, QR scanning, order-processing APIs, synchronization, and backend integration.

GLA Canteen App | Native Android (Java), Firebase, RFID, HDFC/Paytm Payments

- Built an RFID-enabled food-ordering and wallet application with secure payment flows, transaction history, ledger views, Firebase notifications, and real-time data handling.

MRS Pay | Flutter, Firebase, BBPS, UPI and Digital Payments

- Delivered UPI, bill-payment, and mobile-recharge workflows with Firebase Authentication, real-time updates, secure transaction handling, and Google Play release support.

EDUCATION

Master of Computer Applications (MCA), Uttar Pradesh Technical University | 2021 | CGPA: 8.39/10

Bachelor of Computer Applications (BCA), Dr. B. R. Ambedkar University, Agra | 2019 | CGPA: 7.2/10
